Subject: GC/MS sample submission

Hi Chuck,

Please relate to the entire lab that the GC/MS lab would like samples submitted in the following way:

Cases with multiple numbers should be kept on one control sheet.

Unrelated cases (defendants) should have one type of drug submitted on one control sheet.

I spoke to all operators and we're all in agreement. I think this will be easier for the submitting chemist and streamline operation in the GC/MS lab. Unfortunately, it may create additional paperwork.

Peter
